Its been a year since we acquired Lupa. We owe you, our customers, a very big thank you for all your support and feedback through what has been a challenging trading year. The one thing we always promised ourselves was not to compromise on quality and we have not. Our pepperoni, for example, takes three weeks to mature versus a couple of days for "regular" pepperoni. Taste it and see for yourself. Our pork meatballs are handmade by a local butcher, our tiramisu is homemade, we oven roast our chicken – its real food prepared in a real kitchen.

Every pizza we make is made to order. We do not use conveyor belt ovens or mass production processes.

In fact we are even more obsessed with providing the very best customer experience and that means great food, great value and great service. That's the only way we can stay in business. We will not cut corners. If something goes wrong we will put it right so please order and enjoy.
